*Reaffirms
knowledge and
prepares nurses
to validate
their expertise
to care for
acutely/critically
ill patients*

Technical Course Features and Benefits

- Accessible online, anywhere and at any time.
- Course content is reviewed and updated at regular intervals to ensure the latest information and practices are provided.
- Learner engagement and knowledge retention are increased through interactive media, visuals and practice activities.
- Real-life case scenarios facilitate transfer of knowledge to the clinical setting.
- Educators are provided with lesson-level tracking, which provides greater flexibility in assigning and tracking content completion. (Hospital and Institutional Packages Only)

Course Features

Developed, reviewed and tested by progressive and critical care nursing experts in collaboration with AACN, “Adult CCRN Certification Review” features:

- **Comprehensive, modular content** — Detailed content presented in modules by body system that aligns with the current CCRN test plan and enables flexible learning
- **Reinforcement through engagement** — Practice questions with answers and rationales throughout each module to reinforce learning
- **Continuing education (CE) hours** — Offers up to 15.5 CE contact hours for the full course; hours awarded after the successful completion of the course with a passing score of 80% or above

AACN’s eLearning Program offers continuing education and professional training that critical care and progressive care clinicians need to maintain their edge. All AACN courses are delivered in a convenient, interactive environment that keeps learners focused and stimulated. With courses that include content on pediatric, adult and special patient situations, AACN’s portfolio reflects the latest evidence-based practices. To view AACN’s online courses and other content, visit www.aacn.org/onlinecourses.
