

Essentials of Pediatric Critical Care Orientation (EPCCO)

An online course that provides comprehensive, web-based knowledge and tools needed to care for the most vulnerable pediatric patients

Who Will Benefit From Taking This Course?

Pediatric acute and critical care nurses and those who educate them

Purchase Options

- Hospital and Institutional Packages
- Individual Purchase

Course Learning Objectives

- 1 **Evaluate** assessment data, and implement a plan of care using evidence-based strategies specific to the critically ill child
- 2 **Demonstrate** knowledge of common conditions experienced by acutely ill pediatric patients
- 3 **Assess** the effectiveness of the plan of care for the critically ill pediatric patient

*Promote
consistency in
pediatric care*

CNE hours are provided for this EPCCO course.

Course available to organizations through AACN or our education partner, Pediatric Learning Solutions, a product of Children's Hospital Association

In support of improving patient care, Children's Hospital Association is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Read the scenario then select "Continue." Use the tabs at any time to review.

Scenario Question 1 of 4 Remediation Need Help ?

Ten-year-old PJ was admitted after an auto-bicycle accident. He was conscious at the scene. On arrival at the Emergency Department, he complains of pain in his abdomen and right wrist.

PJ is a previously healthy child and is currently not taking any medications. Vital signs: HR 136, RR 28, BP 110/68, Temp 36.5° Celsius, O₂ sat 92 percent. Pulses diminished throughout and extremities cool to touch.

Course Features

Developed by Pediatric Learning Solutions (a product of Children's Hospital Association) in collaboration with clinical content experts, "Essentials of Pediatric Critical Care Orientation" features:

- **Body systems approach** — The course orients new pediatric nurses on caring for critically ill children, using this familiar framework
- **Latest evidence-based practices** — Interactive case scenarios and practice activities empower nurses to assess and manage common pediatric disorders with confidence
- **Applied learning opportunities** — Ample case studies and practice exercises facilitate knowledge transfer, bridging the gap between school learning and clinical reality
- **Continuing education (CE) hours** — Offers up to 27.5 CE contact hours; hours are awarded after the successful completion of each module with a passing score of 80% or above

Technical Course Features and Benefits

- Accessible online, anywhere and at any time
- Course content is reviewed and updated at regular intervals to ensure the latest information and practices are provided
- Learner engagement and knowledge retention are increased through interactive media, visuals and practice activities
- Real-life case scenarios facilitate transfer of knowledge to the clinical setting
- Educators are provided with lesson-level tracking, which provides greater flexibility in assigning and tracking content completion (Hospital and Institutional Packages Only)
