# Certification Program

## Definition

Certification is a process by which a nongovernmental agency validates, based upon predetermined standards, an individual nurse's knowledge for safe and effective practice in a defined functional or clinical area of nursing. Over 136,000 practicing nurses are currently certified in acute and critical care nursing through AACN Certification Corporation.

PCCN certification validates your knowledge of nursing care of acutely ill adult patients in your specialty area to hospitals, peers, patients and, most importantly, to yourself. Certification promotes continuing excellence in progressive care nursing.

In addition to providing you with a sense of professional pride and achievement, PCCN certification reinforces the special knowledge and experience required for progressive care nursing.

## Purpose and Limitations of Renewal Options

The purpose of certification renewal is to promote continued competence. The renewal process helps to maintain an up-to-date knowledge base through continuing education and practice hours, or practice hours and passing the certification exam.

Following are the limitations to the components of the renewal options:

- CE/CERP limitations include content quality and relevance to practice as well as an individual's ability to self-select CE/CERPs most pertinent to the individual's practice and educational needs.
- Limitations of practice hours include the quality of the practice environment and limitations on learning opportunities.
- One limitation of the exam is not assessing new competencies, as exam competencies were validated through initial certification.

Requiring two components for renewal rather than one decreases the limitations and furthers the goal of continued competence.

## Code of Ethics

AACN and AACN Certification Corporation consider the American Nurses Association (ANA) Code of Ethics for Nurses foundational for nursing practice, providing a framework for making ethical decisions and fulfilling responsibilities to the public, colleagues and the profession.

AACN Certification Corporation's mission of public protection supports a standard of excellence that certified nurses have a responsibility to read, understand and act in a manner congruent with the ANA Code of Ethics for Nurses.

To access the ANA Code of Ethics, visit [www.aacn.org/certification/Overview](http://www.aacn.org/certification/Overview) > [Learn More](#).

## Membership Requirements

There are no association membership requirements to participate in AACN Certification Corporation programs.

## Nondiscrimination Policy

It is the policy of AACN Certification Corporation, its Board of Directors, committee members and staff to comply with all applicable laws that prohibit discrimination in employment or service provision because of a person's race, color, religion, gender, age, disability, national origin or any other protected characteristic.

## Recognition of PCCN Certification

Nurses who have passed the PCCN certification exam\* and meet PCCN renewal requirements may use “PCCN” after their licensing title. PCCN certification must be renewed every 3 years.

PCCN is a registered trademark. It is not punctuated with periods. The proper use of PCCN is as follows:

Chris Smith, RN, PCCN

**Certificants who choose Inactive status may not use the PCCN credential.**

Misuse of the credential is viewed by AACN Certification Corporation as misleading to the public and may result in denial or revocation of certification.

A listing of PCCN-certified nurses is maintained by AACN Certification Corporation and may be reported in its publications.

Certification status is available to the public via the online certification verification system, available at [www.aacn.org/certification](http://www.aacn.org/certification) > [Verify Certification](#).

*\*Nurses who passed the PCCN-K exam prior to Nov. 1, 2023 may also use PCCN after their licensing title.*

## Name and Address Changes

It is the certificant’s responsibility to notify AACN Certification Corporation of any changes in name and/or address during the certification period. Failure to do so may result in not receiving the information necessary for certification renewal.

Please notify us of any address or email address changes; you may update your profile as follows:

- Online at [www.aacn.org/myaccount](http://www.aacn.org/myaccount),
- Email [info@aacn.org](mailto:info@aacn.org), or
- Call AACN Customer Care at 800-899-2226

The following changes must be made by calling AACN Customer Care at 800-899-2226:

- Name changes
- Address changes for exam candidates during 90-day testing window

Once you have successfully renewed online, you will be subject to the same random audit process as any other certificant. You must maintain records of your CERPs for 3 years after your scheduled renewal date, to submit in the event of an audit.

# PCCN Renewal Eligibility - Direct Care Pathway

## Licensure

Current, unencumbered U.S.<sup>1</sup> RN or APRN licensure is required.

- An unencumbered license has not been subjected to formal discipline by the board of nursing in the state(s) in which you practiced during the 3-year certification period and had no provisions or conditions that limited your nursing practice.
- Provisions or conditions may include, but are not limited to, direct supervision of practice, drug administration limitations and/or practice area exclusions.
- Documentation of all provisions and conditions from the board or its designee must be reviewed prior to approval for renewal.
- Certificants must notify AACN Certification Corporation **within 30 days** if any provisions or conditions are placed on their RN or APRN license(s).

## Exam

Have passed the adult PCCN certification exam.

## Practice

Practice as an RN or APRN for 432 hours in direct care of acutely ill **adult** patients during the 3-year certification renewal period, with 144 of those hours accrued in the last year of the certification renewal period is required.

- Practice hours must be completed in a U.S.-based<sup>1</sup> or Canada-based facility or in a facility determined to be comparable by verifiable evidence to the U.S. standard of progressive care nursing practice as evidenced by Magnet® designation or [Joint Commission International](#) accreditation.

- Nurses serving as manager, educator (in-service or academic), APRN or preceptor may apply hours spent supervising nursing students or nurses at the bedside toward the clinical hour requirement.

Nurses in these roles must be actively involved in direct patient care; for example, demonstrating how to apply ECG leads or supervising a new employee or student nurse performing a procedure.

Determination of eligibility is not based on unit type but on patient acuity, as patient placement varies by facility and bed availability, etc. However, nurses with clinical practice hours in the following units/areas likely qualify for PCCN renewal: intermediate care, direct observation, stepdown, telemetry, transitional care, subacute and cardiac catheterization – or in other units as appropriate.

If you have cared for or are actively involved in the direct care of acutely ill adult patients for an average of 12 hours per month over your renewal period (equivalent to 432 hours during the 3-year certification period, with 144 of those hours accrued in the last year of the certification period), you meet the clinical hour requirement.

## Practice Verification

The name and contact information of your supervisor or a professional colleague (RN or physician) must be provided for verification of eligibility related to practice hours. If you are selected for audit, this associate will need to verify that you have met the practice hour requirements.

AACN Certification Corporation may adopt additional eligibility requirements at its sole discretion. Any such requirements will be designed to establish, for purposes of PCCN certification, the adequacy of a candidate's knowledge in caring for acutely ill adults.

Questions regarding renewal eligibility should be emailed to [certification@aacn.org](mailto:certification@aacn.org).

<sup>1</sup> Includes District of Columbia and U.S. territories of Guam, Virgin Islands, American Samoa and Northern Mariana Islands

# Renewal Eligibility Options

Certification is granted for a period of 3 years. At renewal time, PCCN candidates may seek Renewal by Synergy CERPs or Renewal by Exam. PCCN renewal options include the Direct Care Renewal Pathway, Knowledge Professional Renewal Pathway or Inactive status.

## Option 1 — Renewal by Synergy CERPs

The Continuing Education Recognition Point (CERP) program encompasses a wide spectrum of continuing education activities for acute and critical care nurses.

CERPs may be awarded for activities such as acute and critical care publications, presentations, leadership responsibilities and quality assurance activities. CERPs may also be awarded for membership in professional nursing or healthcare organizations and volunteer activities.

PCCN Renewal by Synergy CERPs via the Direct Care Pathway is obtained by completing a total of 100 CERPs with a minimum of 60 CERPs in Category A and a minimum of 10 CERPs each in Categories B and C during the 3-year renewal period.\* Acceptable topics and activities for CERPs are listed in this handbook on [pages 13 to 19](#).

Complete the PCCN Renewal Application for the Direct Care Pathway, on [page 24](#), and the Renewal by CERPs Honor Statement, on [page 25](#).

*\* Both PCCN renewal pathways (Knowledge Professional and Direct Care) require a total of 100 CERPs with a minimum number of CERPs in Categories A, B and C. If you are renewing PCCN via a different pathway, you may complete the Synergy CERP requirements for the pathway from which you are moving or the pathway you are moving to.*

**For details, refer to the applicable renewal handbook.**

## Option 2 — Renewal by Exam

Renewal by exam candidates must submit their application no later than 30 days prior to the certification expiration date. Contact AACN Customer Care for more information and assistance. You may not take the exam and then attempt to renew by CE Points or CERPs if you do not pass. If you do not pass the exam, you must meet initial exam eligibility requirements and submit an application to retake the exam.

Refer to the [PCCN Exam Handbook - Direct Care Eligibility Pathway](#) for the current test plan and exam references and to the [Certification Exam Policy Handbook](#) for exam scheduling and testing information. Visit [www.aacn.org/certification](http://www.aacn.org/certification) or email [certcorp@aacn.org](mailto:certcorp@aacn.org).

Complete the PCCN Renewal Application for the Direct Care Pathway, on [page 24](#), and the Renewal by Exam Honor Statement, on [page 26](#).

To renew via the Knowledge Professional Pathway, you must meet those requirements.

► **PCCN renewal via the Knowledge Professional Pathway:**

Refer to the [PCCN Exam Handbook - Knowledge Professional Eligibility Pathway](#) for the current test plan and exam references.

AACN Certification Corporation is transitioning to the use of generic names only for medications in exams and practice exam products. During the transition, exam candidates may continue to see items that include both generic and trade names.

**Online renewal is available at [www.aacn.org/certification](http://www.aacn.org/certification) > [Renew Certification](#)**

*continued*

## Renewal Eligibility Options (continued)

### Option 3 — Inactive Status

Inactive status is available to renewing candidates who do not meet renewal eligibility requirements but do not wish to lose their certification. Inactive status provides additional time, up to 3 years from the scheduled renewal date, to meet the renewal eligibility requirements.

**While Inactive, you may not use the PCCN credential.** You may reactivate your certification anytime during the 3-year Inactive period, as soon as you meet all of the established renewal eligibility requirements. Inactive status does not allow the certified nurse 6 years to meet the requirements (the original certification renewal period plus the Inactive period).

**The eligibility requirements must be accrued within a 3-year period**, with 144 practice hours accrued in the most recent year preceding reactivation. Certification will be reinstated upon submission of a completed renewal application and renewal fee.

You may choose to reactivate as soon as you meet the renewal criteria. When moving from Inactive status to active status, your new 3-year certification period begins

on the first day of the month following when your renewal application is signed.

**Example:** Mary Jones obtains Inactive status on February 1, 2023. She completes a home study course acquiring the needed CERPs by April 30, 2023 and would now like to reactivate. Eligible CERPs and hours must have been completed between May 1, 2020 and April 30, 2023.

**Inactive status may be held more than once, but not for two consecutive renewal periods.**

To apply for Inactive status:

- Go online to [www.aacn.org/certification](http://www.aacn.org/certification) > [Renew Certification](#), or
- Complete the first page of the PCCN Renewal Application for the Direct Care Pathway (on [page 24](#)), select the Inactive status category, and sign and date.

If you do not reactivate 4 months prior to the end of your 3-year Inactive period, reminders will be sent to you by email referring you to the most recent version of the renewal handbook.

See next page for additional options available to renewing PCCNs.

## Alternate Options

### Alumnus Status

Alumnus status is for certified nurses who no longer provide direct care to acutely ill patients for enough hours to renew an active certification, but continue to work in the nursing profession in some capacity and wish to remain connected with the PCCN credential.

Alumnus nurses receive monthly access to *AACN Clinical Voices*.

The “Alumnus PCCN” designation, written out, may be used on a resume or business card, but may NOT be used after an individual’s signature or on a name badge. Candidates choosing Alumnus status are not eligible to renew an active certification. Alumnus PCCNs who wish to reobtain certification status are required to take the exam as an initial applicant.

Alumnus status is renewable every 3 years.

### Eligibility

- Have been PCCN certified
- No longer providing direct care to acutely ill adult patients, not even in a supervisory role, for enough hours to meet the clinical hour requirement to renew an active certification (Note: Supervisors at the bedside generally still qualify to be certified and, therefore, do not usually qualify for Alumnus status.)
- Submission of a completed application and fee

Note: CERPs are not required for Alumnus status.

### Retired Status

Retired status provides the certified nurse or Alumnus PCCN who is retiring from the nursing profession with a continued sense of career identity and professional connectedness. The Retired designation recognizes certified nurses for their years of service in the care of acutely ill patients. It also acknowledges their pride in and dedication to having been certified.

To be eligible for the Retired designation, a nurse must have been PCCN-certified and have no plans of returning to practice or renewing certification. The retired RN must not be working in any type of position that requires the possession of an RN license. Nurses who are moving to another role in nursing are not eligible and should apply for Alumnus status.

Retired nurses receive monthly access to *AACN Clinical Voices*. The “Retired PCCN” designation, written out, may be used on a resume or business card, but may NOT be used after an individual’s signature or on a name badge.

Retired status is renewable every 3 years.

### Eligibility

- Have been PCCN certified
- Retired from nursing with no plans of returning to nursing or renewing certification (nurses who are moving to another role in nursing should apply for Alumnus status)
- Submission of a completed application and fee. Renewal of Retired Status is available at no additional cost.

You may apply for Alumnus or Retired status online at [www.aacn.org/certification](http://www.aacn.org/certification) > [Renew Certification](#).

To obtain a paper Alumnus or Retired status application, visit [www.aacn.org/certification](http://www.aacn.org/certification) or email [certcorp@aacn.org](mailto:certcorp@aacn.org).

## PCCN Renewal Audit

In compliance with standard regulatory practices, AACN Certification Corporation conducts random audits following certificants' successful renewal. Certificants are not notified in advance when being audited.

Certificants selected for audit are notified via email and have a period of 60 days to submit the required verification materials, which include:

- Copy of RN or APRN license
- CERP Log
- Copies of CERP documentation
- Form to verify clinical hours

Failure to respond to or pass an audit may result in revocation of certification. Revocation may include notification of the candidate's employer and state board of nursing, as appropriate.

Certificants who successfully complete PCCN renewal should continue to keep personal records of CERP activities for at least 3 years beyond their scheduled renewal date to submit in the event that an audit is performed. A CERP Log, to be submitted only if audited, is included in this handbook. Electronic versions of the CERP Log may be accessed online at [www.aacn.org/certification](http://www.aacn.org/certification).

AACN Certification Corporation reserves the right to conduct additional audits as necessary.

## Revocation of Certification

AACN Certification Corporation may revoke certification, or renewal of certification may be denied, for any reason deemed appropriate including, but not limited to, the following:

- Falsification of a certification exam application or renewal application
- Falsification of any information provided to AACN Certification Corporation
- Failure to meet/maintain eligibility requirements
- Failure to pay fees
- Failure to meet deadlines
- Failure to respond to or pass an audit
- Misrepresentation of certification status or misuse of certification
- Conviction of a felony

- Cheating (or reasonable evidence of intent to cheat) on the exam
- Sharing exam content
- Provisions or conditions placed on RN or APRN licensure during the certification renewal period

Certificants must notify AACN Certification Corporation **within 30 days** of any provisions or conditions placed against their RN or APRN license(s).

In the event of revocation, notification may be sent to the candidate's employer and state board of nursing, where appropriate. The candidate will be notified that he/she may be prohibited from reapplying for any AACN certification exam for a period of up to 3 years.

Fees paid for certification renewal are not refunded.

# Review and Appeal of Certification Eligibility

The review and appeal process is available to individuals whose certification status has been denied, expired or revoked.

## Internal Review Panel (IRP)

The review process is conducted by the staff of AACN Certification Corporation.

Initial applicants and prospective applicants may request a review of eligibility within 45 days of notification of denial. The written request should describe their eligibility and how it conforms to the certification program.

Requests for review of expired or revoked certification status should include information and documents to support the request for reinstatement. Requests for review should be received within 30 days of notification of certification expiration or revocation.

Please email your request for review to:

[certification@aacn.org](mailto:certification@aacn.org)

Or mail to:

**Certification Specialist**  
AACN Certification Corporation  
27071 Aliso Creek Road  
Aliso Viejo, CA 92656-3399

The IRP will review the documentation provided and render a decision within 30 days. Additional information may be requested by the IRP. The IRP decision will be communicated via phone or email to the individual requesting review.

## Appeal of Eligibility, Exam and Renewal Determination

A candidate who believes he/she was unjustly denied eligibility for an exam, who challenges results of an exam or who believes he/she was unjustly denied renewal of certification may request reconsideration of the decision by emailing a written appeal to [certification@aacn.org](mailto:certification@aacn.org).

The candidate for certification or renewal of certification must provide convincing evidence that a severe disadvantage was afforded the candidate during processing of an application for exam or renewal of certification or prior to or during administration of an exam.

The appeal must be made within 45 days of receipt of the adverse decision (for example, a score report or any other official correspondence related to certification or renewal of certification from AACN Certification Corporation or its agents). The written appeal must also indicate the specific relief requested.

The appeal process is conducted by the AACN Certification Corporation Appeals Panel. The Appeals Panel is comprised of certified peer volunteers who have an understanding of the credential being appealed and are not members of the internal review process. Panel members sign confidentiality agreements as well as conflict of interest forms prior to participation.

The Appeals Panel will review the documentation provided and render a decision within 30 days of date of appeal. The decision of the Appeals Panel is final and will be communicated via email to the requesting individual.

For questions about the review and appeal process, please call AACN Certification Corporation at 800-899-2226.

## AACN Synergy Model for Patient Care

Synergy is an evolving phenomenon that occurs when individuals work together in mutually enhancing ways toward a common goal. AACN Certification Corporation is committed to ensuring that certified nursing practice is based on the needs of patients. Integration of the AACN Synergy Model for Patient Care into AACN Certification Corporation's certification programs puts emphasis on the patient and says to the world that patients come first.

The Synergy Model creates a comprehensive look at the patient. It puts the patient in the center of nursing practice. The model identifies nursing's unique contributions to patient care and uses language to describe the professional nurse's role. It provides nursing with a venue that clearly states what we do for patients and allows us to start linking ourselves to, and defining ourselves within, the context of the patient and patient outcomes.

Based on the most recent AACN Certification Corporation study of nursing practice, the test plans for our certification exams reflect the Synergy Model as well as findings related to nursing care of the adult patient population studied.

### Patient Characteristics

The Synergy Model encourages nurses to view patients in a holistic manner rather than the "body systems" medical model. Each patient and family is unique, with a varying capacity for health and vulnerability to illness. Each patient, regardless of the clinical setting, brings a set of unique characteristics to the care situation. Depending on where they are on the healthcare continuum, patients may display varying levels of the following characteristics:

<b>Resiliency</b>	Capacity to return to a restorative level of functioning using compensatory/coping mechanisms; the ability to bounce back quickly after an insult
<b>Vulnerability</b>	Susceptibility to actual or potential stressors that may adversely affect patient outcomes
<b>Stability</b>	Ability to maintain a steady-state equilibrium
<b>Complexity</b>	Intricate entanglement of two or more systems (e.g., body, family, therapies)
<b>Resource Availability</b>	Extent of resources (e.g., technical, fiscal, personal, psychological and social) the patient/family/community bring to the situation
<b>Participation in Care</b>	Extent to which patient/family engages in aspects of care
<b>Participation in Decision-Making</b>	Extent to which patient/family engages in decision-making
<b>Predictability</b>	A characteristic that allows one to expect a certain course of events or course of illness

#### FOR EXAMPLE:

A healthy, uninsured, 40-year-old woman undergoing a pre-employment physical could be described as an individual who is (a) stable (b) not complex (c) very predictable (d) resilient (e) not vulnerable (f) able to participate in decision-making and care, but (g) has inadequate resource availability.

On the other hand: a critically ill, insured infant with multisystem organ failure can be described as an individual who is (a) unstable (b) highly complex (c) unpredictable (d) highly resilient (e) vulnerable (f) unable to become involved in decision-making and care, but (g) has adequate resource availability.

## AACN Synergy Model for Patient Care (continued)

### Nurse Characteristics - Grouped by Renewal by Synergy CERP Categories

Nursing care reflects an integration of knowledge, skills and experience necessary to meet the needs of patients and families. Thus, nurse characteristics are derived from patient needs and include:

#### Category A

<b>Clinical Judgment</b>	Clinical reasoning, which includes clinical decision-making, critical thinking and a global grasp of the situation, coupled with nursing skills acquired through a process of integrating education, experiential knowledge and evidence-based guidelines.
<b>Clinical Inquiry</b>	The ongoing process of questioning and evaluating practice and providing informed practice. Creating changes through evidence-based practice, research utilization and experiential knowledge.

#### Category B

<b>Caring Practices</b>	Nursing activities that create a compassionate, supportive and therapeutic environment for patients and staff, with the aim of promoting comfort and healing and preventing unnecessary suffering. These caring behaviors include but are not limited to vigilance, engagement and responsiveness of caregivers. Caregivers include family and healthcare personnel.
<b>Response to Diversity</b>	The sensitivity to recognize, appreciate and incorporate differences into the provision of care. Differences may include, but are not limited to, individuality, cultural, spiritual, gender, race, ethnicity, lifestyle, socioeconomic, age and values.
<b>Advocacy/ Moral Agency</b>	Working on another's behalf and representing the concerns of the patient/family and nursing staff; serving as a moral agent in identifying and helping to resolve ethical and clinical concerns within and outside the clinical setting.
<b>Facilitation of Learning</b>	The ability to facilitate learning for patients/families, nursing staff, other members of the healthcare team and community. Includes both formal and informal facilitation of learning.

#### Category C

<b>Collaboration</b>	Working with others (e.g., patients, families, healthcare providers) in a way that promotes/encourages each person's contributions toward achieving optimal/realistic patient/family goals. Collaboration involves intra- and inter-disciplinary work with colleagues and community.
<b>Systems Thinking</b>	Body of knowledge and tools that allow the nurse to manage whatever environmental and system resources that exist for the patient/family and staff, within or across healthcare systems and non-healthcare systems.

Nurses become competent within each continuum at a level that best meets the fluctuating needs of their population of patients. More compromised patients have more severe or complex needs, requiring nurses to have advanced knowledge and skills in an associated continuum.

#### FOR EXAMPLE:

If the patient was stable but unpredictable, minimally resilient and vulnerable, primary competencies of the nurse would be centered on clinical judgment and caring practices (which includes vigilance). If the patient was vulnerable, unable to participate in decision-making and care, and had inadequate resource availability, the primary competencies of the nurse would focus on advocacy and moral agency, collaboration and systems thinking.

Although all eight competencies are essential for contemporary nursing practice, each assumes more or less importance depending on a patient's characteristics. **Synergy results when a patient's needs and characteristics are matched with the nurse's competencies.**

## PCCN Renewal Synergy CERPs

A total of 100 CERPs must be completed in the 3-year PCCN certification period, with at least 60 CERPs in Category A and 10 CERPs each in Categories B and C - plus 20 CERPs in the category of your choice.

### How to Calculate CERPs

Continuing Education Recognition Points (CERPs) are calculated according to the educational contact hour for seminars or lectures.

For purposes of certification renewal, one (1) hour of education time is equal to 1 CERP. For example, a 1-hour in-service would be worth 1 CERP; an education program that awarded 6 contact hours, 6 CEs or 6 CMEs would be worth 6 CERPs. CERPs are not awarded for registration, introductions, breaks, lunch, clinical time or for completion of certification exams.

For Academic Credit Courses, **one (1) credit is worth 15 CERPs**. For example, a 3-credit course would be worth 45 CERPs.

3 CERPs are granted for each contact hour of lecture given. Each repeat presentation is granted 1 CERP per contact hour for a maximum of two times within a certification period.

I hereby apply for PCCN certification renewal. Submission of this application indicates I understand and have met the renewal eligibility requirements as documented in the *PCCN Renewal Handbook - Direct Care Pathway*.

**LICENSURE:** I possess a current, unencumbered U.S. RN or APRN license. My \_\_\_\_\_ (state) nursing license \_\_\_\_\_ (number) is due to expire \_\_\_\_\_ (date). During this last certification period, no license I've held was subjected to formal discipline by the board of nursing in the state(s) in which I practiced and had no provisions or conditions that limited my nursing practice in any way. I understand that I must notify AACN Certification Corporation **within 30 days** if any provisions or conditions are placed against any RN or APRN license(s) I hold.

**PRACTICE:** During this last 3-year certification period, I fulfilled the clinical practice requirements of 432 hours as an RN or APRN, with 144 of those hours accrued in the 12-month period prior to my scheduled renewal date, in direct care of acutely ill **adult** patients. Hours were completed in a U.S.-based or Canada-based facility or in a facility determined to be comparable to the U.S. standard of progressive care nursing practice as evidenced by Magnet® designation or [Joint Commission International](#) accreditation.

**PRACTICE VERIFICATION:** Following is the contact information of my clinical supervisor or a professional colleague (RN or physician) who can verify that I have met the clinical practice hour requirements:
