Greater Twin Cities Area Chapter

Excellence in Chapter Community Education and Public Service

The Greater Twin Cities Area Chapter of AACN, Minnesota, has thoughtfully and On Purpose dedicated itself to community education for nurses in the area and committed to public service as a pillar of our identity. Educational dinners, an annual critical care symposium and CCRN/PCCN and CMC/CSC certification review courses contribute to preparing our community of nurses to serve the Twin Cities population. In addition, our chapter offers many healthcare opportunities for our local communities. Some of these include screening children for heart disease and teaching CPR and AED awareness, collecting food and supplies for local homeless teens, and gathering supplies during our monthly meetings that include feminine products for those experiencing homelessness. These community service opportunities help us engage our chapter membership.
