

CIRCLE
OF EXCELLENCE 2026

Greater Kansas City Chapter

Excellence in Chapter Educational Programming

The Greater Kansas City Chapter, Missouri, launched in 2025-2026 with an energizing kickoff focused on collaboration and purposeful planning. Early initiatives included vendor-sponsored educational dinners, which drew strong attendance and fostered networking among nurses across Kansas City. In August 2025, several board members were published in *Critical Care Nurse* for their article “Collaboration Over Competition,” highlighting multi-institutional teamwork. The chapter also presented its “Chapter Resuscitation” poster at NTI 2025, gaining national interest. In addition to strong educational offerings, community outreach remains a priority, with events supporting a domestic violence shelter, a local food pantry and a medical supply donation center. In March 2026, the annual Vision Symposium will continue its tradition of expert speakers, CE opportunities and charitable collections. Spring Trivia Night in April offers a fun, community-building tradition. GKCC-AACN enters the year being strong, and focused on education, service and connection.
