New York City Chapter
Excellence in Chapter Collaboration

The New York City Chapter demonstrates exemplary collaboration by uniting nurses, interdisciplinary teams and community organizations to advance patient care. Signature initiatives, such as the Harlem Day Health Fair, and partnerships with LiveOnNY, AstraZeneca and cultural associations, address critical issues such as health education, food insecurity, organ donation and disease awareness. Annual service projects provide holiday meals and essential items to families in need, reflecting a compassionate approach to nursing. The chapter fosters professional growth through mentorship, interpersonal education and advocacy, ensuring the development of future nursing leaders. By aligning our core values and actions with the needs of our communities, we support nurses, drive innovations and empower our communities while maintaining our commitment to excellence in care and purposeful collaboration.
